

Planning Models Improvement Program

Status:

In Progress

IWR Contact:

Lillian Almodovar (Lillian.Almodovar@usace.army.mil)

Purpose:

IWR is developing preliminary protocols for the certification of planning models. The preliminary protocols will include processes and criteria to be used by the PCXs for the implementation of the requirements of EC 1105-2-407. The preliminary protocols will be tested in two models to be selected by Headquarters. The results of the test will be used to produce the final protocols for certification of planning models.

Objective:

-Workshop of modelers and PCXs representatives to discuss current processes used by the Corps laboratories and collect information for development of protocols
-Development of preliminary protocols
-Testing of preliminary protocols
-Development of final protocols
